SMART J-BOARD

Your Blue Yonder (BY) Dashboards – Revitalized

Now your Warehouse KPIs are easily accessible and easy to understand for your entire team. Smart J-Board customizes BY Dashboards and brings them to big screens and empowers users to allow them to make better, more informed decisions.

Features

- ➜ Compatibility across devices, built on Microsoft Windows platform.
- ➜ Provides visual representation of rapidly changing data, for example the Work Queue.
- ➜ Centralized control with automated device registration.
- ➜ Customizable displays for tailored information.
- ➜ Dynamic data representation, including real-time statistics and navigation automation.
- ➜ For Blue Yonder 2017+ versions, drive existing screens in a dashboard.
- ➜ Enhanced content integration, such as localized weather and internal announcements.
